- You can expect a phone call from the imaging director by the end of the business day today to schedule your patient's nuclear scintigraphy scan.
- On the day that your patient is scanned, you can expect to receive an email by the end of the business day with a link to the images from the scintigraphy scan for you to review. All images will be read by Palm Beach Equine's radiologist and a report will be available by the end of the second business day after the patient has been scanned.
